

INDOOR GARDENING WORKSHOP

Winter is coming. Why not garden all year?

Get tons of new resources, tips, tricks, and ideas for growing indoors!

Things have come a long way with indoor gardening! From Bonsai trees to microgreens, now you can grow all kinds of flowers, plants, and even vegetables in the comfort of your own home.

Learn about the types of indoor gardens you can grow, what light sources are needed, and more! Sample indoor growing lights, equipment, and gardens will be presented.

Great for downsizers, people who live in smaller spaces, and all types of gardeners.
